

BEYOND BEIGE INTERIOR DESIGN INC.

Vancouver Designer Named One of the Top 18 Interior Designers in North America

Reisa Pollard has been awarded a spot on the prestigious Boutique 18 List highlighting the most notable interior designers in North America.

FOR IMMEDIATE RELEASE

Vancouver, BC, May 13, 2009 – Beyond Beige Interior Design Inc. Founder & Creative Director, Reisa Pollard has been named one of the top eighteen interior designers making waves in North America by Boutique DESIGN Magazine. Awarded to designers across North America whose projects span into the entertainment and hospitality sectors, Pollard was selected for the Boutique 18 based on Vancouver-based projects in the entertainment sector.

"I am truly delighted to be selected as one of the Boutique 18. We work hard to exceed client expectations and maintain a unique and unmatched style in our concepts and designs, so to have our work recognized by the industry is both rewarding and exciting." says Reisa Pollard.

Boutique DESIGN Magazine is an international publication that caters specifically to the boutique hotel, spa and restaurant market and feature stories on designers, major hospitality projects, industry news and products. The Editorial panel of the magazine selects eighteen interior designers annually that are making an impact and setting trends in design within the entertainment and hospitality industries. This year's designers will be profiled in the May/June issue of Boutique DESIGN and attend an awards ceremony in Las Vegas to celebrate their achievement.

Reisa Pollard has been selected for the Boutique 18 in recognition of her design work at popular Vancouver entertainment destinations such as Ginger Sixty-two and The Morrissey. Newly designed and renovated Ginger Sixty-Two in particular, has the Vancouver scene buzzing about the phenomenal transformation of the space into something unseen in the city to date. Pollard's creativity, innovation and talent on such projects have not only garnered her a spot on the Boutique 18 list, but have also established her as one of Vancouver's most sought after interior designers.

"We are so proud that our work has made an impact in Vancouver and now beyond. North America has a wealth of brilliant and talented interior designers, so it is a privilege to be named among them on the Boutique 18 list. I feel lucky to have a job that I love doing every day, and this is just a cherry on top," comments Pollard.
